

Children Cry for Fletcher's

CASTORIA

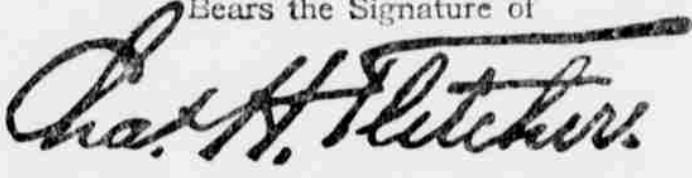

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. H. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

HOME OWNER-SHIP LAW UP TO FARMERS

GOVERNOR WILL SEEK TO INCREASE LOANS OF SCHOOL FUNDS — ENLISTS AID OF THE DEMONSTRATION AGENTS.

Oklahoma City, April 20.—That the farmers of Oklahoma are not taking advantage of the cheap money that the state school land commissioners have to lend to them is evident from the statistics of the school land office as shown of March 31 last. That is due rather to lack of knowledge on the part of the farmers and no efforts of interested persons to make loans at higher rates seems to be in part, at least, a fact.

In order to overcome this situation it is the intention of Governor Williams to make every possible effort to place the money of the school land funds in the hands of farmers and home builders on farms at the low rate of interest provided by law. To this end Governor Williams procured the adoption of a resolution at the meeting of the commissioners this week which directs the secretary of the school land commission to take up the farm loan plan and the home ownership plan of the commission with the seventy county farm demonstration agents in Oklahoma with the purpose of getting such agents interested and making of them agencies for dissemination of information among farmers of Oklahoma as to the availability and low interest rates of this school money that is to be loaned on farm security.

Governor is Optimistic.

It is the belief of Governor Williams that all the considerable sum of school land money that is now available in the two funds for farm loans can be placed with the farmers on good security at the low rate of interest provided by law and that the fund will thus be conserved and at the same time the farmers of Oklahoma be assisted in paying for their homes, making necessary improvements thereon and operating their farms on a business-like basis with money loaned by the state at a rate of interest but one-half as much as is charged by the competing loan companies.

On March 31 last there was in the home ownership division the sum of \$489,600 available for loans under the home ownership law on an amortization plan that would discharge the debt and interest in semi-annual payments of 4 per cent for a period of twenty-three years. Some of this fund has been transferred to the farm loan division because of the apparent disinclination of borrowers to engage in the home ownership plan, possibly because of the long term of the loans and the impossibility of discharging them at earlier dates.

On the same date there was available for loans in the farm loan division the sum of \$912,469 at an interest rate of 5 per cent a year. These loans are made on straight farm mortgages and are payable at the end of the term or before.

The aggregate of money controlled by the school land office available for loans at this time on Oklahoma farms is therefore \$1,402,069. Against this there are applications on file for loans aggregating but \$178,675.

Commission Changes Its Rules.

By a recent resolution of the school land commissioners the rules of the commission were amended abolishing the apportionment of funds by counties and relaxing to a certain extent restrictions as to residence of the borrowers. This resolution was passed at a meeting attended by but three of the commissioners, President Gault of the board of agriculture, Secretary of State Lyon and State Auditor Howard. They also provided in a resolution that a large part of the money available in the home ownership division should be transferred to the farm loan division. This action was taken because it was apparent to them that the farm loan division was more popular with borrowers than the home ownership division.

A summary of the condition of the common school fund of Oklahoma to March 31, 1916, shows that this fund amounts to \$6,158,623. It is invested as follows:

County expense bonds, \$545,500;

MASSING VAST ARMIES FOR VERDUN FIGHT

GERMANY WITHDRAWS TROOPS FROM THE EASTERN WAR ZONE — WHILE RUSSIANS LAND IN FRANCE TO AID ALLIES.

London, April 20.—Russia has come to the aid of France and Great Britain in the great struggle on the western front, sending a strong force of troops to fight with the entente allies there. The Russians disembarked at Marseilles at noon Thursday, their arrival being noted by General Joffre in the order of the day, the French commander-in-chief citing their coming as another striking proof of Russia's devotion to the common cause of the allies. The troops arrived on the eve of the day marking the end of the second month of the Verdun battle.

The Russians are believed to have embarked for France from the port of Archangel on the White Sea, the only port through which there is free communication between Russia and her allies in the west. It is considered probable that transports carrying the troops made a wide sweep out into the north Atlantic before heading for the Mediterranean to avoid the submarine danger zone in the vicinity of the British.

Port of Archangel Closed.

In this connection it is to be noted that word reached London Thursday, through private cable advices that Russia had closed the port of Archangel to all except government traffic. This may indicate that other troop movements from Archangel to the western front are either under way or in contemplation.

Several times during the war there have been reports that Russia was sending troops to the Franco-Belgian front, travelers even declaring that detachments have been seen en route through Scotland and England. No such troops have ever appeared on the west battle line, however.

Germans Withdraw Troops from East

German troops in large numbers are being withdrawn from the Balkan and Russian front because of the strong resistance of the French in the Verdun region, according to information from the highest military authorities in Paris. The Germans are driving at the British line in Belgium. According to Berlin they have occupied six hundred metres of British trenches between Ypres and Langemarck.

The French again have taken the offensive in the Verdun battle and launched attacks against the German lines on the right bank of the Meuse. Paris declares the aggressive move was successful resulting in the capture of portions of German trenches and a redoubt, and the taking of several hundred prisoners.

Follows New German Drive

This operation on the part of General Petain's forces follows closely a German move in a new field in the struggle for the fortress. This took the form of a drive on the extreme right flank of the French forces in this sector, three successive attacks being delivered at Les Eparges, about thirteen miles southeast of Verdun on the edge of the Woëvre plain.

Military observers have long expected some such operation on the part of the Germans as part of a squeezing movement intended to force the evacuation of the fortress. The new attempt was unsuccessful, however. Paris has reported the Germans having been driven off by a counter attack out of the 200 yards of trenches they had succeeded in occupying.

A plot of wide scope to cause a revolution in India is announced from London to have been uncovered as a result of the seizure last February of German and Austrian subjects on the liner China bound from Shanghai to the United States.

RED CROSS STORY

Red Cross Ball Blue and what it will do seems like an old story, but it's true. Red Cross Ball Blue is all blue. No adulteration. Makes clothes whiter than snow. Use it next washday. All good grocers sell it.—Adv.

Government in Ohio costs no little sum. During the first nine months of the present fiscal year the state expenditures for governmental purposes reached \$15,907,941.50. On this basis the expenses for the state for the year will be above the \$21,000,000 mark. Last year it was slightly above \$20,000,000. The hope of reducing state expenditures seems to have been entirely abandoned. A flood of new work of various sorts, and new demands have conspired to defeat Governor Cox's economy plans.
